

QualiTack[®] 692

Aluminium Complex Foodgrade

Description

QualiTack 692 is an aluminium complex grease based on medical mineral base oils. The product contains anti-oxidants, corrosion inhibitors, anti-wear and EP additives. QualiTack 692 is NSF Registered for use in machinery in the food industry where food can come incidental in contact with the grease, category code H1.

Properties

- Good oxidation stability
- Excellent load carrying capacity
- Food machinery product
- Excellent water resistance

Application

QualiTack 692 is mainly used in the canning, dairy and sugar industries, packaging machines, bottle filling machines, fish processing factories and slaughterhouses.

ISO Norm: ISO 6743-9; L-XBCDB 2
DIN Standard: DIN 51502; KP2K-20

Technical specifications

Thickener		Aluminium Complex
Base oil		Pharmaceutical white oil
Colour	Visual	White
Consistency	ASTM D217	NLGI 2
Drop point	IP 396	>230C°
Base oil viscosity @ 40°C	ASTM D 7152	550 mm ² /s
Base oil viscosity @ 100°C	ASTM D 7152	53 mm ² /s
4-Ball weld load	DIN 51350	6000 N
Temperature	Continuous period	-20°C – 120°C
Temperature	Short period @ max	130°C
